

**Visit Allion @ Computex Taipei 2016**  
***Experience Comprehensive Test Service for***  
***USB Type-C™ Cables***

Allion is excited to announce that it will be participating in the USB Community at Computex Taipei 2016.

In 2015, USB Implementers Forum (USB-IF) designated Allion Taiwan / Shanghai / Japan as three of the authorized independent test labs to conduct USB E-Marker testing; this testing service is for USB Type-C™ cables with E-Marker (Electronic Marker) chips. In addition, to satisfy the surging demand for USB Type-C™ E-Marker cables, Allion Taiwan is a USB-IF authorized independent test lab for USB Type-C™ cable and connector assemblies to help cable vendors bring high-quality products to global markets.

During Computex Taipei 2016, Allion will display the USB-enabled device/cable assembly and connector testing solutions. Allion seeks to increase market exposure to deliver compliant USB technology solutions.

Please visit the USB-IF Booth No. **M0309a** located at NanGang Exhibition Hall 4F to meet with Allion.
